To Church Leaders Everywhere,

This note is to inform you that I have sat through Paul Volk's seminar, "New Start Plus" and would recommend his program to churches everywhere. His material is based on the eight health principles advocated by Ellen White.

Paul has not had a great deal of training in health education, but he is well informed and a very capable presenter.

As former Secretary of the Ministerial Association of the General Conference, I have traveled to most parts of the world and am convinced his program would receive international acceptance.

With Christian love,

Floyd Bresee
