This letter serves to recommend **Paul Volk** as a Health Educator. Paul spoke at two different sessions at Calvary Temple, Suva. The main focus of his presentation was on Living a Happy, Healthy and Holy life for God.

Paul conducted two different sessions. The morning session was attended mostly by women and the older folks while the evening session was attended by students, youths and the working adults. Even the retired and senior citizen took interest to the sessions.

Paul is a dynamic speaker. His expressive style captivated the audience who came from different walks of life. The choice of simple words, humor, and demonstration during the presentation was appropriate for second language speakers.

Apparently Paul took time to find out more about the Fijian lifestyle and eating habits. This helped him to relate to the experience and make his presentation more meaningful and relevant to the listeners. Generally his message was clear and understood well by most people particularly when he made reference to the Bible to support his views.
