To Whom It May Concern:

This letter is to acknowledge that Paul Volk, director of the Jefferson Better Living Center, is an active and effective leader in our community.

His involvement includes work with youth, as well as adults, bringing about a better community in which all have benefited. I have been made aware that nearly 500 people a month take advantage of the many free services and programs offered by the staff at the Jefferson Better Living Center.

Mr. Volk's commitment and enthusiasm has proven to be a great asset to our families here in Port Townsend. If you have any questions or would like additional recommendations please contact me at (360) 385-3000.

Sincerely,

Julie McCulloch
