To Whom It May Concern:

It is with heart-felt appreciation to Paul and his ministry that I write this letter of reference to you.

Mr. Volk's ministry is multifaceted.

Paul presented health lectures that have made a lasting impact on our church family. The members were very receptive to, not only to Paul's information concerning their health, but to his warm manner in presenting it.

He also presented a comprehensive lecture series on the book *Steps to Christ*, complete with heart warming illustrations that spoke eloquently of not only his wealth of ministry background but also of his personal walk with God. It becomes very apparent when you listen to Paul that he is fully committed to serving the Lord.

His presentations were punctuated with guest singer Rudy Micelli, and health advisor David Hall. Also, all of his presentations include a Power Point presentation.

You will not regret inviting Paul Volk to your church community.

Sincerely,

Elder David Moench (*Pastor*)
