Aloha Paul,

I just got a call from the network and they are saying that they will be using your segment taped with us to air May 9, 9:30am CA time. Food to be Careful About. I wanted to make sure your info is still current so could you please respond with website, address, phone and title that you want on screen? There has been a change over in the department and they have revisited footage submitted. I am so glad to hear they will be airing you. This will be aired worldwide.

Mahalo & God Bless,

Cheryl Rzonca Witbeck
